

GI Bill Benefits

Recommended Education Abroad Programs

In order to use GI Bill funds for education abroad, students must be attending a program:

- That completes degree requirements.
- That offers CSU credits OR VA approved transfer credits.

The only programs that meet all of these requirements include:

- CSU faculty/staff-led programs and internship programs receiving only CSU credits.
- Pre-approved CSU Sponsored Direct Enrollment programs.

MILITARY AND VETERANS BENEFITS ADVISING:

Not all expenses are covered by the GI Bill benefits. Veterans are encouraged to contact the CSU registrar's office with any questions pertaining to the processing of VA educational benefits.

INTERNATIONAL PROGRAMS
COLORADO STATE UNIVERSITY

Recommended Programs

There are some CSU partner programs, which may bill the VA for study abroad tuition directly (this does not apply to exchange programs). Please work with the host institution and CSU's Military and Veteran's Benefits office to explore payments for these potential programs:

- Keele University
- Lincoln University
- Macquarie University
- Massey University
- Swansea University
- University of Economics in Prague, CESP
- University of Exeter
- University of Leicester
- University of Limerick
- University of Reading
- University of South Australia
- University of Tasmania

Direct Enrollment

While other direct enrollment options are possible, there are no guarantees that the billing arrangements will work efficiently and CSU Education Abroad is unable to facilitate billing arrangements.

If a preferred program is not eligible for GI Bill benefits, students can use other institutional and federal financial aid for studying abroad.

Students will maintain their status as a CSU student while abroad if they work with the CSU Education Abroad office and Military and Veteran's Benefits office.
